IIC, JDSG College, Bokakhat on 5th June, 2024 organised an awareness and lecture talk on the occasion of World Environment Day. The lecture was organized to spread awareness amongst the students about the theme and importance of the day.

World Environment Day is celebrated as a global reminder to preserve, protect and restore ecosystems.

Objective:

- To remind the students to preserve, to protect and restore ecosystem.
- To discuss about the significance of the day.
- To enlighten students about land restoration, desertification and draught resilience.
- To encourage awareness on the protection of the environment.

Outcomes:

- Preparing young minds for upcoming environmental changes.
- To inculcate the habit of protecting and preserving the nature.
- To Promote indigenous ways of living.

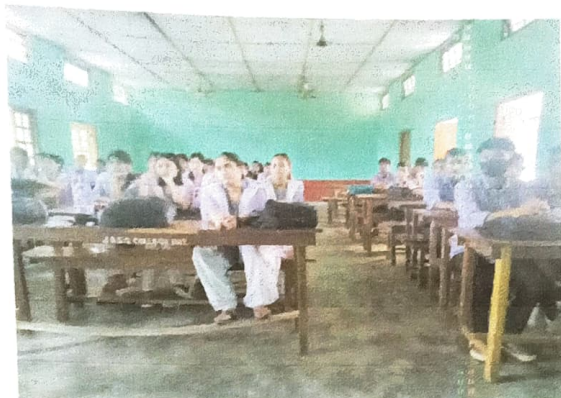

Activity Details:

World Environment Day 2024 is being celebrated today on 5th June 2024 at Room no A 25 organised by Institution's Innovation Council, JDSG College in presence of NSS Unit I & II, Eco Club, KAZIRANGA Study Centre, JDSG College, Bokakhat. The meeting was started with the introductory speech by Prashanta Saikia, HoD, Department of Political Science. Mrs. D. Rajkumari Vice Principal of the college has delivered her speech reminding students regarding the importance of nature and the requirement of present day to maintain it. Dr. Santi Saya Boruah, Associate Professor, JDSG College shared her insight on the importance of tree in our life. Moving ahead, Dr. Jayanta Das, Co-ordinator, IQAC cum HoD, Department of English and Mr. Motiram Das, HoD, Department of commerce also motivated the students with his speech. On this occasion, to talk specifically the importance of the day and relevant theme on land restoration, desertification and draught-resilience, Mr. Sasanka Dhaval Saikia, Assistant Professor of the college was invited. He shared his valuable insights on the topic and give awareness to the students on creating a resilient society. Ms. Dikshya Saikia, convener, IIC JDSG College has given her speech on to adopting the indigenous ways of life to mitigate environment and climate change effects and promoted the students to create a resilient society and community. The awareness lectures ended with the vote of thanks from Mr. Prashanta Saikia.
